Dragboats of the 1960s Photo Archive Don Edwards 2008-09-15 The time has come to chronicle a photo archival book of Drag Boats of the 1960s aptly named "The Rebel Decade." This was the birth of "whip-start" dragsters which led to today's organized drag boat racing. Recognized and featured are those racing legends like Larry Schwabenland, Ray Caselli, Gary Gabelich, Dwight Bale, hot boat builders like Rich Hallett, "Sanger Jack" Davidson, Rudy Raymos, engine builders Keith Black, Dave Zeuschel, Ed Pink, Louis Unser and many others who reigned in their heyday. These mavericks dared to mix unleashed speed-on-the-water with smoke and fire, thunderous nitro or powerful blown gas while avoiding the moment when their boat could take a deadly spin, nose dive or flight--many failed. Drag Boats of the 1960s Photo Archive is a team effort by many of those who were there; only they could have created this riveting history on the fastest, most exciting and dangerous era in water sports.

The Zenith Trans-Oceanic John H. Bryant 1995 The previously untold story of the Zenith Trans-Oceanic, the world's most romantic and expensive series of portable radios. Long a companion of kings, presidents, transoceanic yachtsmen and world explorers, the Trans-Oceanic was also carried into battle by American troops in three wars. Its great popularity in spite of a very high price can be laid at the feet of several generations of armchair travelers who used the shortwave capabilities of the Trans-Oceanic as a window on the world. With access to the Zenith corporate archives and their long experience as radio enthusiasts and writers for both the popular and scholarly press, Professors Bryant and Cones present the engrossing stories of the development and use of the Trans-Oceanic throughout its forty year life. They present a wealth of never-before published photographs, documents and information concerning these fascinating radios, their collection, preservation and restoration.

More Brilliant Than the Sun Kodwo Eshun 2018-10-09 The classic work on the music of Afrofuturism, from jazz to jungle More Brilliant than the Sun: Adventures in Sonic Fiction is one of the most extraordinary books on music ever written. Part manifesto for a militant posthumanism, part journey through the unacknowledged traditions of diasporic science fiction, this book finds the future shock in Afrofuturist sounds from jazz, dub and techno to funk, hip hop and jungle. By exploring the music of such musical luminaries as Sun Ra, Alice Coltrane, Lee Perry, Dr Octagon, Parliament and Underground Resistance, theorist and artist Kodwo Eshun mobilises their concepts in order to open the possibilities of sonic fiction: the hitherto unexplored intersections between science fiction and organised sound. Situated between electronic music history, media theory, science fiction and Afrodiasporic studies, More Brilliant than the Sun is one of the key works to stake a claim for the generative possibilities of Afrofuturism. Much referenced since its original publication in 1998, but long unavailable, this new edition includes an introduction by Kodwo Eshun as well as texts by filmmaker John Akomfrah and producer Steve Goodman aka kode9.

Jacobson on the Yup'ik language and dialects. Over these decades, Jacobson has combed through records of explorers, linguists, missionaries, and anyone who has come in contact with the actively migratory Yup'ik people. Combined with information from native Yup'ik speakers, that research has led to a richly detailed dictionary that covers the entire language and all its dialects. The dictionary also offers sections on Yup'ik spelling, early vocabulary, demonstrative words, and important intersections of Yup'ik language and culture such as the kayak, dogsled, parka, and old-style dwellings.
