*Hothouse Earth* Stephanie Sammartino McPherson 2021-03-02 As hurricanes, droughts, floods, and wildfires are increasing in regularity and intensity, climate change can no longer be ignored. Melting permafrost, forest dieback, ocean acidification, and other processes are

creating positive feedback loops which could, if not aggressively and quickly addressed, spiral out of control and take global warming past the point of no return. Hothouse Earth examines how science, politics, and social justice must all be part of the equation to counteract climate change.

*Assassin's Prey* Ella Sheridan 2019-06-09

"Assassin Levi Agozi has lived a brutal life, but at his core is a man of strength and honor—my favorite kind of hero. I have added a new autobuy author to my list and her name is Ella Sheridan!" –Lara Adrian, New York Times bestselling author I killed my first man at the age of twelve. I've been killing ever since. I thought it was all I lived for...until Abby. Until the woman I'd kidnapped became the woman I couldn't walk away from. She owns a piece of me I wouldn't take back, but the rest? The only way to protect her is to hold back the parts inside me that are too ugly to ever reveal. I'll keep her safe, even from me. And it works. We have the nights, and I hunt my way through the days. Alone. Until an attack reveals a threat we didn't see coming. One that could take away the dream I didn't realize I had. Everything. With her. I'm on the hunt of my life. My prey might run, but in this fight—for her, for us—they don't stand a chance. \* ASSASSIN'S PREY is the second book

of a duet. It is recommended that you read ASSASSIN'S MARK first to enjoy the full story. *Say Goodbye To The River* Patrick E. Craig 2020-11-20 With this book, Craig takes us into deep green forests, beside fast silver waters where trout rise, on long hikes over hills flamed by autumn and along slopes of tall, sharp mountains. He takes us into his youth. Everything in the Pacific Northwest of another century comes to life--the people, the animals that make their way along wide or narrow trails, a thriving wilderness of woods and brush and alpine flower. Even the trucks, cabins, fishing gear and rutted roads of a long-gone era fill our imaginations as Craig's rich and evocative writing takes hold. His thoughts, his contemplations and his regrets weave seamlessly in and out of a golden time when the sun shone bright, the rain fell true and the seasons rolled over the shoulders of a young man bursting into life like the leaves on a spring poplar. Think Norman Maclean's *A River Runs*

Through It, Ernest Hemingway's Big Two-Hearted River, Faulkner's The Bear and Sigurd Olson's The Singing Wilderness. Nature writing and the writing of the heart at its very best.

XXXXX Martin Howse 2006 xxxxx proposes a radical, new space for artistic exploration, with essential contributions from a diverse range of artists, theorists, and scientists. Combining intense background material, code listings, screenshots, new translation, [the] xxxxx [reader] functions as both guide and manifesto for a thought movement which is radically opposed to entropic contemporary economies.

xxxxx traces a clear line across eccentric and wide ranging texts under the rubric of life coding which can well be contrasted with the death drive of cynical economy with roots in rationalism and enlightenment thought. Such philosophy, world as machine, informs its own deadly flipside embedded within language and technology. xxxxx totally unpicks this hiroshimic engraving, offering an dandyish alternative by way of deep examination of software and substance. Life coding is primarily active, subsuming deprecated psychogeography in favour of acute wonderland technology, wary of any assumed transparency. Texts such as Endonomadology, a text from celebrated biochemist and chaos theory pioneer Otto E. Roessler, who features heavily throughout this intense volume, make plain the sadistic nature and active legacy of rationalist thought. At the same time, through the science of endophysics, a physics from the inside elaborated here, a delicate theory of the world as interface is

proposed. xxxxx is very much concerned with the joyful elaboration of a new real; software-led propositions which are active and constructive in eviscerating contemporary economic culture. xxxxx embeds Perl Routines to Manipulate London, by way of software artist and Mongrel Graham Harwood, a Universal Dovetailer in the Lisp language from AI researcher Bruno Marchal rewriting the universe as code, and self explanatory Pornographic Coding from plagiarist and author Stewart Home and code art guru Florian Cramer. Software is treated as magical, electromystical, contrasting with the tedious GUI desktop applications and user-led drudgery expressed within a vast ghost-authored literature which merely serves to rehearse again and again the demands of industry and economy. Key texts, which well explain the magic and sheer art of programming for the absolute beginner are published here. Software subjugation is made plain within the very title of media theorist Friedrich Kittler's essay

Protected Mode, published in this volume. Media, technology and destruction are further elaborated across this work in texts such as War.pl, Media and Drugs in Pynchon's Second World War, again from Kittler, and Simon Ford's elegant take on J.G Ballard's crashed cars exhibition of 1970, A Psychopathic Hymn. Software and its expansion stand in obvious relation to language. Attacking transparency means examining the prison cell or virus of language; life coding as William Burrough's cutup. And perhaps the most substantial and thorough-going examination is put forward by daring Vienna actionist Oswald Wiener in his Notes on the Concept of the Bio-adapter which has been thankfully unearthed here. Equally, Olga Goriunova's extensive examination of a new Russian literary trend, the online male literature of udaff.com provides both a reexamination of culture and language, and an example of the diversity of xxxxx; a diversity well reflected in background texts ranging across subjects such

as Leibniz' monadology, the ur-crash of supreme flaneur Thomas de Quincey and several rewritings of the forensic model of Jack the Ripper thanks to Stewart Home and Martin Howse. xxxxx liberates software from the machinic, and questions the transparency of language, proposing a new world view, a sheer electromysticism which is well explained with reference to the works of Thomas Pynchon in Friedrich Kittler's essay, translated for the first time into English, which closes xxxxx. Further contributors include Hal Abelson, Leif Elggren, Jonathan Kemp, Aymeric Mansoux, and socialfiction.org.

Pornified Pamela Paul 2007-04-01 "Strips porn of its culture-war claptrap . . . Pornified may stand as a Kinsey Report for our time."—San Francisco Chronicle Porn in America is everywhere—not just in cybersex and Playboy but in popular video games, advice columns, and reality television shows, and on the bestseller lists. Even more striking, as porn has become

affordable, accessible, and anonymous, it has become increasingly acceptable—and a big part of the personal lives of many men and women. In this controversial and critically acclaimed book, Pamela Paul argues that as porn becomes more pervasive, it is destroying our marriages and families as well as distorting our children's ideas of sex and sexuality. Based on more than one hundred interviews and a nationally representative poll, *Pornified* exposes how porn has infiltrated our lives, from the wife agonizing over the late-night hours her husband spends on porn Web sites to the parents stunned to learn their twelve-year-old son has seen a hardcore porn film. *Pornified* is an insightful, shocking, and important investigation into the costs and consequences of pornography for our families and our culture.

**Crossed Swords** Shuja Nawaz 2008 Based on 30 years of research and analysis, this definitive book is a profound, multi-layered, and historical analysis of the nature and role of the Pakistan

army in the country's polity as well as its turbulent relationship with the United States. Shuja Nawaz examines the army and Pakistan in both peace and war. Using many hitherto unpublished materials from the archives of the United States, the United Kingdom, and the General Headquarters of the Pakistan Army, as well as interviews with key military and political figures in Pakistan and the United States, he sheds light not only on the Pakistan Army and its US connections but also on Pakistan as a key Muslim country in one of the world's toughest neighborhoods. In doing so, he lays bare key facts about Pakistan's numerous wars with India and its many rounds of political musical chairs, as well as the Kargil conflict of 1999. He then draws lessons from this history that may help Pakistan end its wars within and create a stabler political entity.

Prostitution, Trafficking, and Traumatic Stress

Melissa Farley, PhD 2012-09-10 Prostitution, Trafficking, and Traumatic Stress offers the reader an analysis of prostitution and trafficking as organized interpersonal violence. Even in academia, law, and public health, prostitution is often misunderstood as "sex work." The book's 32 contributors offer clinical examples, analysis, and original research that counteract common myths about the harmlessness of prostitution. Prostitution, Trafficking, and Traumatic Stress extensively documents the violence that runs like a constant thread throughout all types of prostitution, including escort, brothel, trafficking, strip club, pornography, and street prostitution. Prostitutes are always subjected to verbal sexual harassment and often have a lengthy history of trauma, including childhood sexual abuse and emotional neglect, racism, economic discrimination, rape, and other physical and sexual violence. International in scope, the book contains cutting-edge contributions from clinical experts in traumatic

stress, from attorneys and advocates who work with trafficked women, adolescents, and children and also prostituted women and men. A number of chapters address the complexity of treating the psychological symptoms resulting from prostitution and trafficking. Others address the survivor's need for social supports, substance abuse treatment, peer support, and culturally relevant services. To stay up-to-date on this powerful subject, visit the "Traffick Jamming" blog at

<http://www.prostitutionresearch.com/blog>.

Prostitution, Trafficking, and Traumatic Stress examines: The connections between prostitution, incest, sexual harassment, rape, and domestic violence Clinical symptoms common among those in prostitution, including dissociation, posttraumatic stress disorder, depression, and substance abuse Peer support programs for women escaping prostitution Culturally relevant services for women escaping prostitution The connection between prostitution and trafficking,

including trafficking from Mexico to the United States, and prostitution of adolescents in Cambodian brothels Online prostitution How gay male pornography harms gay men Accessing public assistance funds for survivors of prostitution Arguments against legalizing or decriminalizing prostitution From the editor's Preface: Prostitution is to the community what incest is to the family. Slavery, at its height, was normalized in the United States as unpleasant but inevitable, yet it is now considered to be an institution that violated human rights. Perhaps we will at some point in the future look back on prostitution/trafficking with a similar historical perspective. It is my hope that this book will assist the reader in understanding prostitution and trafficking and in how to help women and children escape it.

The Feeling of Life Itself Christof Koch

2020-09-08 An argument that consciousness, more widespread than previously assumed, is the feeling of being alive, not a type of computation or a clever hack. In *The Feeling of Life Itself*, Christof Koch offers a straightforward definition of consciousness as any subjective experience, from the most mundane to the most exalted—the feeling of being alive. Psychologists study which cognitive operations underpin a given conscious perception. Neuroscientists track the neural correlates of consciousness in the brain, the organ of the mind. But why the brain and not, say, the liver? How can the brain, three pounds of highly excitable matter, a piece of furniture in the universe, subject to the same laws of physics as any other piece, give rise to subjective experience? Koch argues that what is

needed to answer these questions is a quantitative theory that starts with experience and proceeds to the brain. In *The Feeling of Life Itself*, Koch outlines such a theory, based on integrated information. Koch describes how the theory explains many facts about the neurology of consciousness and how it has been used to build a clinically useful consciousness meter. The theory predicts that many, and perhaps all, animals experience the sights and sounds of life; consciousness is much more widespread than conventionally assumed. Contrary to received wisdom, however, Koch argues that programmable computers will not have consciousness. Even a perfect software model of the brain is not conscious. Its simulation is fake consciousness. Consciousness is not a special type of computation—it is not a clever hack. Consciousness is about being.

selling Author I knew the minute I saw him that Levi Agozi was too perfect to be real. I didn't care. He came to me, asked for me, and, dazzled by his dark good looks and the bad-boy aura surrounding him, I gave in. Willingly. My father is set to become the next governor of Georgia, and he'll use me to get there if he has to. He'll hand me over, virginity and all, to the man with the biggest bank account and political pull. I wanted something more. I wanted Levi. And I had him—until I woke up, disoriented and confused, at his mercy. He's a bad boy, all right. A sexy, deadly assassin. And I'm the pawn torn between him and my father, two powerful men intent on destroying each other. I might not understand their war, but I do understand one thing: no matter who wins, I lose.

**The Everyday Dancer** Deborah Bull 2011-10-06

The Everyday Dancer is a new and honest account of the business of dancing from a writer with first hand experience of the profession. Structured around the daily schedule, The Everyday Dancer goes behind the velvet curtain, the gilt and the glamour to uncover the everyday realities of a career in dance. Starting out with the obligatory daily 'class', the book progresses through the repetition of rehearsals, the excitement of creating new work, the nervous tension of the half hour call, the pressures of performance and the anti-climax of curtain down. Through this vivid portrait of a dancer's every day, Deborah Bull reveals the arc of a dancer's life: from the seven-year-old's very first ballet class, through training, to company life, up through the ranks from corps de ballet to principal and then, not thirty years after it all began, to retirement and the inevitable sense of loss that comes with saying goodbye to your

childhood dreams.

Penulis mengambil kasus pada PT. Ima Mountaz Sejahtera Lhokseumawe, adalah suatu perusahaan yang bergerak dalam industri pengolahan air minum dalam kemasan (AMDK) bermerk MOUNT AQUA dalam kemasan yaitu kemasan 250 ml, kemasan 600 ml, kemasan 1500 ml dan kemasan Gallon (19 liter). Dalam suatu industri adanya kondisi dimana keterbatasan faktor-faktor produksi seperti, bahan baku, tenaga kerja, mesin, modal dan

jumlah permintaan mengakibatkan munculnya permasalahan dalam kombinasi produk. Agar mencapai laba yang maksimum maka perusahaan harus menentukan secara tepat jumlah masing-masing jenis produk yang akan dihasilkan, karena setiap jenis produk memerlukan biaya produksi yang berbeda-beda dan akan memberikan keuntungan yang berbeda-beda pula. Untuk menentukan kombinasi produk tersebut akan digunakan metode linear programming. Tingkat permintaan pasar ditentukan dengan melakukan peramalan menggunakan data penjualan produk tahun-tahun sebelumnya. Peramalan dilakukan dengan Software Quantitative System (S-QS) untuk hasil yang lebih cepat, akurat dan teliti. Bagian kedua landasan teori, dimana pada bab ini menjelaskan teori-teori yang diuraikan sebagai referensi dalam penelitian antara lain; perencanaan produksi, peramalan (forecasting), biaya pabrikan, analisa marginal income, dan linear programming. Bagian ketiga metodologi &

pengumpulan data, dimana penelitian yang digunakan adalah penelitian kuantitatif dengan pendekatan model permasalahan diformulasikan dalam bentuk matematis linear programming, dengan menentukan variabel keputusan, penentuan dan perumusan fungsi tujuan dan penentuan fungsi pembatas. Data-data diperoleh dengan melakukan observasi, wawancara, studi dokumentasi, dan studi pustaka. Bagian keempat pengolahan data & hasil penelitian. Pengolahan dan analisis data ini menggunakan analisis deskripsi yang bertujuan untuk memberikan solusi yang optimal dari jumlah produksi dan keuntungan (total marginal income).

### **The Romantic Legacy of Paradise Lost**

Jonathon Shears 2016-12-05 The Romantic Legacy of Paradise Lost offers a new critical insight into the relationship between Milton and the Romantic poets. Beginning with a discussion of the role that seventeenth and eighteenth-century writers like Dryden, Johnson and Burke played in formulating the political and spiritual mythology that grew up around Milton, Shears devotes a chapter to each of the major Romantic poets, contextualizing their 'misreadings' of Milton within a range of historical, aesthetic, and theoretical contexts and discourses. By tackling the vexed issue of whether Paradise Lost by its nature makes available and encourages alternate readings or whether

misreadings are imposed on the poem from without, Shears argues that the Romantic inclination towards fragmentation and a polysemous aesthetic leads to disrupted readings of Paradise Lost that obscure the theme, or warp the 'grain', of the poem. Shears concludes by examining the ways in which the legacy of Romantic misreading continues to shape critical responses to Milton's epic.

Padre Pio and I Adolfo Affatato 2019-02-13 Adolfo Affatato is one of the last living spiritual sons of St. Pio of Pietrelcina. Recently translated into English, "Padre Pio and I" is the culmination of what he witnessed as he sat by the saint's side for sixteen years. This is not a typical biography

by a journalist, friar, or academic; instead, the author presents "the Padre" intimately and personally -- as a father figure who tenderly guided and directed him. This book is filled with riveting new accounts of the mystical side of Padre Pio: from the moment Affatato was called by name by Padre Pio out of a crowd to Padre Pio's characteristic rose-scented fragrance Affatato does not disappoint. Yet, the author's motivation for writing this book is not to boast of supernatural phenomena he was privileged to witness. Instead, it is a response to what Padre Pio once told him some six decades ago: "Give the love that I have put into your heart to those to whom you draw near, because in this is the meaning of life." And Adolfo has spent his adult life responding to that mandate. While most octogenarians spend their final years in repose, Adolfo tirelessly traverses the Italian peninsula giving conferences to audiences of a few dozen or a few thousand. He has spoken to popes, cardinals and countesses and regularly appears

on Catholic radio and secular prime-time talk shows alike. And he never accepts a cent for his work; all proceeds for his book sales are donated to a charity. Now for the first time what Adolfo received from Padre Pio is available in English. For those who want to know Padre Pio "more and better" this book is a must read. "This book has touched the heart of Italy; yet, it also touched me. This book can change your life." Andrea Bocelli

**Military Inc** Ayesha Siddiqa-Agha 2017

Pakistan is a strategic ally of the US in the 'war on terror'. It is the third largest recipient of US aid in the world. Yet Pakistan is a state run by its army and intelligence service. Operating in the shadows, Pakistan's military industrial complex owns and controls swathes of the economic and

political landscape of the country. Military Inc. dares to illuminate the military as an oppressive holding company possessing not just security-related businesses, but also hotels, shopping malls, insurance companies, banks, farms and even an airline. The result is a deeply undemocratic society, where money is funnelled towards the military's economic enterprises, leaving those in need of it impoverished and effectively disenfranchised. With an empirical richness, and a view to Pakistan's recent history, Ayesha Siddiqa offers a detailed and powerful case study of a global phenomenon: corruption, hollow economic growth and elitism. This new edition includes a chapter on the recent developments of the military's foray into the media, and a new preface.
