technological, environmental, economic and social aspects of mitigation of climate change. ... The report also assesses mitigation options at different levels of governance and in different economic sectors, and the ... 4 In the social sciences this is referred to as a 'global commons problem'. As this expression is used in the social ...

INTRODUCTION TO DISASTER RISK REDUCTION

Africa has come a long way since the global arena emphasised the need for multi-stakeholder disaster risk

reduction rather than continuing the unsustainable cycle of disaster management. The 2000s saw a number of declarations, policies, strategies, plans and programmes developed. Yet very little real implementation of the above is
